

STONEGATE SUCCESS STORY

Eva M. was admitted to Stonegate Nursing and Rehab following a hospitalization due to a urinary tract infection with acute kidney injury. Prior to this hospitalization, she lived in an assisted living facility with caregiver assistance. Upon evaluation by our experienced therapy team, she required moderate assistance with bed mobility, transfers, toileting, lower body dressing and bathing. She could only take a few steps with a rolling walker and moderate assistance.

Eva participated well in skilled therapy services and made excellent progress. She improved in all areas of self-care and mobility. She was able to successfully return home to an assisted living facility with caregiver support. **Great work, Eva!**
