

STONEGATE SUCCESS STORY

Julia K. was admitted to Stonegate Nursing and Rehab following a hospital stay due having pneumonia and becoming septic. Upon evaluation by our experienced therapy team, she required minimal assistance with bed mobility, transfers, upper body dressing, lower body dressing, toileting and bathing, and could only walk 10 feet with a walker and minimal assistance.

Following 15 days of skilled rehabilitation, Julia was able to complete bed mobility and transfers independently, was able to walk 150 feet with modified independence using a four-wheel walker, and had improved her self-care skills to modified independence for upper and lower body dressing, toileting, and bathing. Her great participation and focus on functional improvement enabled her to successfully return home! **Way to go Julia!**
