

# STONEGATE SUCCESS STORY

**Tommie K.** was admitted to Stonegate Nursing and Rehab following a hospital stay due to a fall. Upon evaluation by our experienced therapy team, he required moderate assistance with bed mobility, upper body dressing, lower body dressing, toileting, and bathing; maximum assistance with transfers; and could walk 25 feet with a walker and moderate assistance.

Following 24 days of skilled rehabilitation, Tommie was able to complete bed mobility independently and walk 200 ft with modified independence using a walker. His self-care skills improved to modified independence for upper and lower body dressing, toileting, and bathing. His good participation and focus on functional improvement led to significant gains that enabled him to successfully return home! **Way to go Tommie!**

## Tommie's Therapy Outcomes
